

# MARK PRECISION AUTOMOTIVE

Instruction Manual:

**CB Radio Mount for Cobra Mini 19**

### Items included:

- 1x CB Radio Mount
- 3x mounting fasteners
- 1x hex key

### Fitment:

- Jeep JL Wrangler (2018-2024)
- Jeep JT Gladiator (2020-2024)

### Installation Guide:

1. Fit your CB radio into the cut-out slot and attach via a single threaded hole on the side. Apply light hand torque and ensure radio is secure in mount.
2. Then, attach the microphone bracket that came with your CB radio to the mount via the two threaded holes.
3. Firmly press the bottom “puck” of the mount into the key fob holder (rectangular cut out) between your front cup holders. The mount and radio should have a snug fit in the key fob holder and should not easily move even while driving off-road. If the mount is not secure, push the puck with more force while slightly wiggling it from side to side to allow it to seat deeper.
